What we heard from the Community:

Lovanna

"We're all aging. My neighbours have been here since we bought the place in the 70s. We can't maintain [the catwalks] anymore, especially in the winter, it's just not safe for [seniors]"

Mary & Wayne

"Our grandkids like to play in the park across the way when they stay. More lighting would make it safer after dark... We do our best to paint over the graffiti and pick up any garbage.

EMPATHY WALK TOOL

Hey, I'm Abdul. When I'm not in school you can find me playing in the park, running through the catwalks or riding my bike on the street. I know I should be careful, but sometimes I don't see cars and at times, they don't always see me.

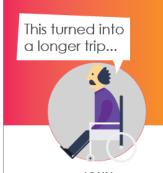

How can we can design safer streets for kids?

MICHAEL Age: 18

I'm new to the Mariborough community - but despite this, 'I've already made some awesome friends here. I'm supposed to be meetling my new bud, Lee at his house which is next to a calvable, but I'm a little lost. As a visually impaired person navigating a new environment, I have to use all other senses for guidance. Today, I'm finding it difficult to distinguish where the catwalk next to his home is. I'm lost, all the textures feel the same!

How can we design an easier environment to navigate?

JOHN Age: 55

Hi there, I'm John! I've lived in Marlborough all my life as an able bodied person. I've recently had leg surgery - leaving me in need of a wheelchair. I used to walk to the mall for groceries - the trip would take 15 minutes - but today, its been more than 35 minutes.

Can you guess why it takes John longer in a wheelchair?

DORIS Age: 75

I'm Doris. I've been a resident of Marlborough since 1966! I used to be able to walk through this community without a problem, but since I've gotten older, my joints hurt more! How that the catwalls here provide me with shortcuts around the neighbourhood, but sometimes I find if difficult to cross the catwalks and the street.

How would you design better connections between

CATALINA Age: 34

Hello, I'm Catalina, I use the aatwalks as a shortest to my nearby daycare - they are really useful and firme saving. I mainly use the aatwalks during the day, when I have to drop off Luis. During the night, when it comes time to pick Luis up, these places are offen dark, which prevent me from seeing where I am going. I'm scared I'm going to bump into something or trip, so instead I take the street route which takes Is minutes longer!

How can you make catwalks feel safer and free of hazards?

Danielle & Americo

We've seen more people walking through the space. The other night one of the neighbours came over with his wife and picked enough kale, tomatoes, and onions for their salad and brought a watering can in hand!

Gloria

More people are coming to this catwalk as a destination now!"

"I've seen bikers actually turn around and bike through to see what's happening in here – overall a lot of positive attention for once

Joan & Wesley

We're out in the yard last night and see the children with their families cycling though the space, stopping to admire all of the art on display. I actually overheard one of the boys asking his father about all the different birds eating out of the feeders you made!

I'm really proud to see work like this being done in our community

Replying to @leticialexanda @SustainableYYC @fedyyc

We have quite a number in Mayland Heights @CrossroadsComm FOR SURE! Many of our look like this photo, which is VERY accessibility challenged! @bennettannette1

Great to see this kind of art & creativity in my community. @SustainableYYC

@SustainableYYC I purposely take a longer route home, just to walk through this amazing Catwalk.

activeneighbourhoodsyyc This is an amazing example of why we do what we do. A longer route home means more physical activity, a reason to walk means greater use of active transportation, and a beautiful space filled with art and food can bring the community together.

Thank you for sharing with us! We can't wait to make your route even more interesting!

activeneighbourhoodsyyc Everything's still looking great at the Marlborough Catwalks. Kids have been using the chalk to welcome people and to tell them to have a good day! We sure had a good day after seeing this.

nick_and_charlie So awesome to see something like this! What could have been a messy alleyway is now the neighbourhood kids' pride and joy and cool hangout place! It would be cool to see the City provide a budget for something like this. You can do so much with so little!
